

CILS RECORD CLEANING PROJECT

A PRESENTATION

Learn how to clear your criminal record

Employers, landlords and others can see parts of your criminal record. Such records are often used by those applying for work, or places to live. Learn about what employers can and can't use when you are seeking work. Also come learn what parts of your record can be cleared.

Forms will be provided for those who wish to start the process of reviewing their records.

If you have your RAP sheet, bring it with you if you want it reviewed. If you need to get a RAP sheet, we will tell you how to get one.
